

**TPA-11**

TOE-PUFF APPLICATOR

- High capacity
- Temperature is controlled by thermocouple max. 220°C
- The three rolls, together with the flexible pad, give high uniform perimetric pressure of the toe puffs
- The roll upon which the toe puff is rolled is Teflon coated
- Thanks to the circular shape given to the uppers, the toe lasting is easier
- Suitable for all types of uppers and boots
- Perfect separation of toe puffs

**Technical Data**

OPERATION	Pneumatic
PRESSURE	6 Bar
CAPACITY	1400 pairs per 8 hours
VOLTAGE	230V single phase 50Hz
POWER CONSUMPTION	700 W
DIMENSIONS (mm)	700X560X1320
WEIGHT	60 Kgs
